PROPERTY DESCRIPTION

This new development is located in a very sought after location within this tranquil village of San Lawrenz, situated on the west side of the island. Ideal for residential, as a second home or a potential 'property for rent' investment in Gozo, this new project on the market, consist of a selection of three houses of character, built from scratch with new 'franka' stone throughout and with loads of architectural features both internally and externally of the said houses. Primarily the design of the properties focus on modern living, practicality together with traditional features, to boost as much as possible the architectural values one still finds in small villages like this around the our island. This will help in the long term to conserve the locality and above all the charm of Gozo.
